MINI POLISHING SYSTEM

MS-MN01

Cable: 1.5m Thread: M14 or 5/8"

The MN01 is designed to be used in tight areas like car headlamps, fog lights, brake lights, door handles, emblems, glass, interior console panels and other small areas.

The universal locking mechanism makes it extremely easy to lock-in all of your favorite accessories. Specifically designed for polishing small areas, the MN01 is proficient in gently removing debris, scratches and other surface imperfections on the recessed areas of your vehicles.

A variety of mini-custom accessories is included that allows you to work on different surfaces. It comes equipped to connect to a 5/8" or M14 connector – which are the industry standard outputs for rotary polishers.

BACKING PLATES

Distributes pressure evenly for optimum defect removal with a high-speed DA polisher
10mm thickness of the Polyurethane provides durability from heat and pressure.

The flexible backing plate is ideal for all brands of Dual Action polishing machines with a 5/16" diameter thread.

The hook and loop backing plate grips all pad types, ensuring pads stay centered and balanced.

The vented design offers fresh air to help cool the backing plate and extend durability.

It can be used more than 10,000 times.

SCRUB NINJA SPONGE

Scrub interior vehicle surfaces like plastic, leather and vinyl clean with the brush-like, bristle-type fabric on this nylon sponge scrubber. The firm but gentle fibers scrub deep into fabric pores and contours. AGGRESSIVE BUT GENTLE CLEANING – The stiff nylon bristles brush away debris gently and with ease. More aggressive than a microfiber towel but more gentle than a melamine sponge.

FOAM POLISHING PAD

Maxshine foam polishing pads are professional designed for the restoration on painted surface and the daily maintenance. The entire series adopt the high quality polyester sponge made in Europe, which possess the advantage of excellent tensile strength and durability, and the service life of which is several times longer than that of the ordinary sponge. You can select out the appropriate hard or soft foam pad according to the process and the polish/wax being used, and make the most ideal gloss finish on the surface.

PREMIUM MICROFIBER DA PAD

The Microfiber Polishing Pad is designed to remove heavy swirl marks, scratches, and oxidation from most paintwork. Microfibre is a very nice material to polish with if the right quality is chosen, it has many hairs that absorb the product well. This makes the microfiber pad very suitable for cutting. At the same time, the hairs are a lot softer than wool.

WOOL POLISHING PAD

Knitted wool pads offered by Maxshine are of 100% wool content, the customized manufacturing technics produces the material in consistent fiber thickness, nap-height and density, less linting, ensure the pad in uniform quality, unlike the variances that can occur with some natural sheepskin pads.

Premium performance on abrasive action and heat-resistance. Working with high-cut wax to aggressively remove scratches and oxid, reduces the swirls and leaves a gloss finish.

CLAY PRODUCTS SERIES

Maxshine Clay has become a really popular component to car enthusiast's culture, as it removes the increasing damage being done to the finishes of today's vehicle due to harsh pollutants that burn right through conventional protectants. Invisible pollutants such as industrial fallout, car exhaust and oxidation from acid rain, along with visible impurities like road tar, tree sap and insect residue, can irreversible damage a new finish in a few short years.

MS-MHD01	110-240V, 1200W	22000FPM, 90CFM	6m(20ft)	50-60Hz	1.5HP

Included: 2 nozzles available

Mini handheld car dryer may be light and compact, but it has strong impact.

THICKENED FILTERED AIR ELEMENT

FLEXIBLE AND CONVENIENT HANDLE

6M(20FT) POWER CORD

2 NOZZLES TO SUIT ANY JOB

- The efficient 1.5HP motor increases air temperature, up to 25 degrees above ambient temperature, which provides faster drying.
- It's filtered air is ideal for delicate surfaces like paint, chrome, and plastics.
- The ergonomic handle optimizes reaching every area in any orientation.
- Perfect for removing water out of all the hard-to-reach places like grilles, bumpers, vents, and wheels.
- More efficient and powerful, while remaining light weight.

Air Filter

Filter the air and thicken the filter element to avoid sucking some dust particles into the motor.

Contactless Drying

Stops marring & swirls

20ft / 6m

Professional Cord

Mini Handheld Dryer may be light and compact, but it packs a big punch. Ideal for safely and easily drying every bit of a vehicle, it comes with a handy 20ft/ 6M Cord and a choice of 2 nozzles to suit any job.

SINGLE MOTOR TOUCHLESS CAR DRYER

Touchless drying prevents scratches and swirls.

Powerful single motors blast water away from surfaces, up to 80 times faster than traditional drying methods. Forces water from smaller areas such as around side mirror housings, filler caps, wheel spokes, calipers, and nuts. Dries engines and components quickly to help prevent corrosion.

Single Motor Touchless Car Dryer **with remote control** can be used to remotely adjust the wind speed and turn the machine on/off.
