MINI POLISHING SYSTEM

MS-MN01

Cable: 1.5m Thread: M14 or 5/8"

The MN01 is designed to be used in tight areas like car headlamps, fog lights, brake lights, door handles, emblems, glass, interior console panels and other small areas.

The universal locking mechanism makes it extremely easy to lock-in all of your favorite accessories. Specifically designed for polishing small areas, the MN01 is proficient in gently removing debris, scratches and other surface imperfections on the recessed areas of your vehicles.

A variety of mini-custom accessories is included that allows you to work on different surfaces. It comes equipped to connect to a 5/8" or M14 connector - which are the industry standard outputs for rotary polishers.

BACKING PLATES

Distributes pressure evenly for optimum defect removal with a high-speed DA polisher

10mm thickness of the Polyurethane provides durability from heat and pressure.

The flexible backing plate is ideal for all brands of Dual Action polishing machines with a 5/16" diameter thread.

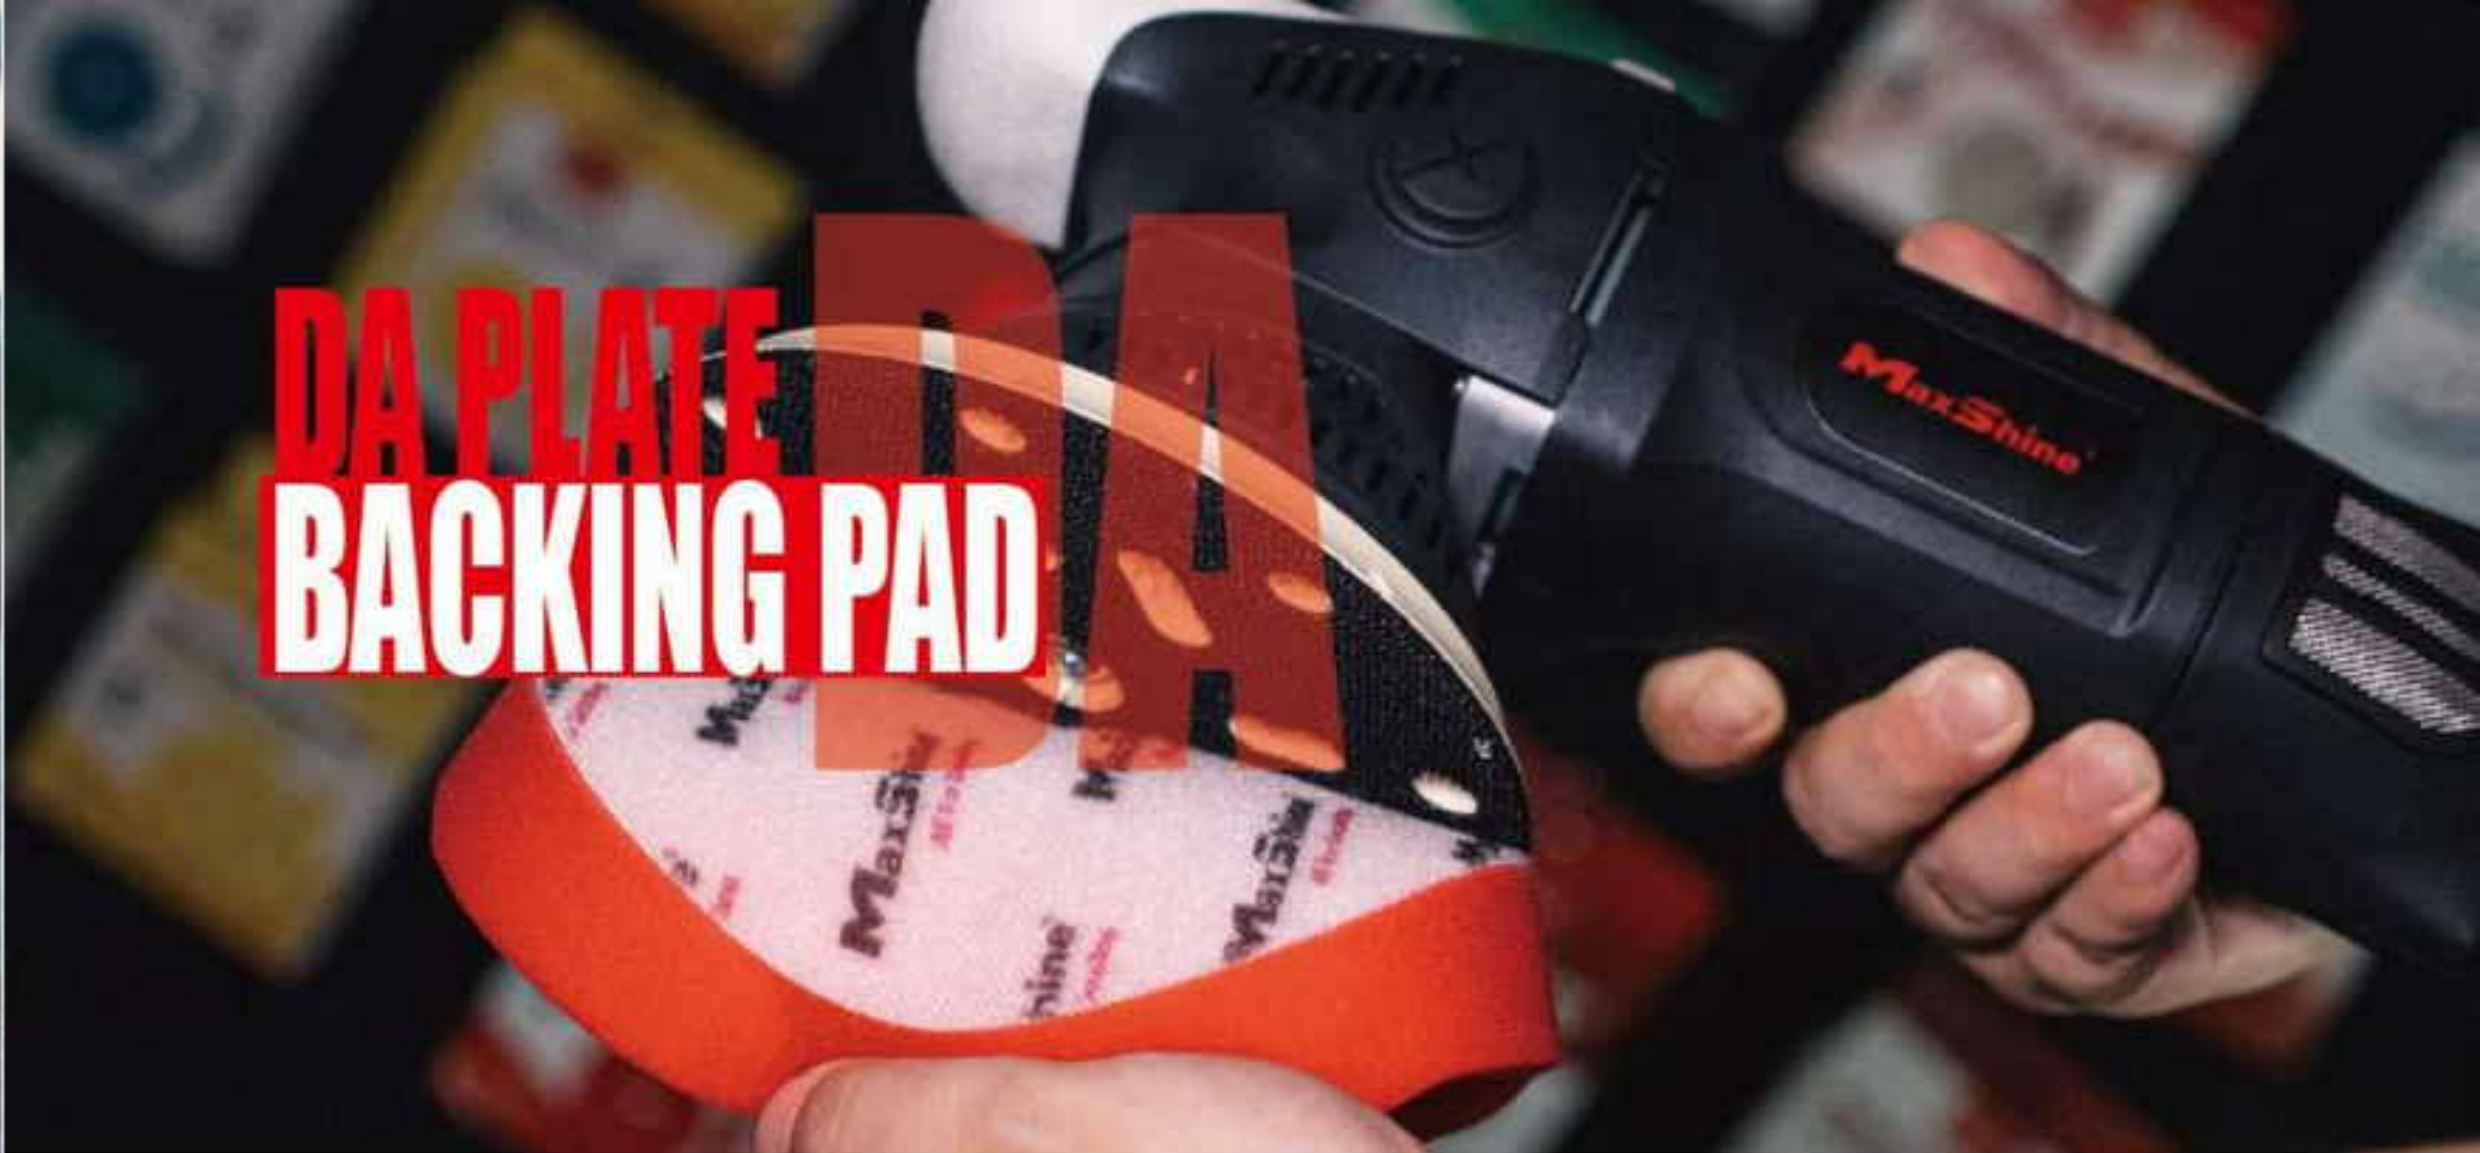

The hook and loop backing plate grips all pad types, ensuring pads stay centered and balanced.

The vented design offers fresh air to help cool the backing plate and extend durability.

It can be used more than 10,000 times.

SCRUB NINJA SPONGE

Scrub interior vehicle surfaces like plastic, leather and vinyl clean with the brush-like, bristle-type fabric on this nylon sponge scrubber. The firm but gentle fibers scrub deep into fabric pours and contours. **AGGRESSIVE BUT GENTLE CLEANING** – The stiff nylon bristles brush away debris gently and with ease. More aggressive than a microfiber towel but more gentle than a melamine sponge.

FOAM POLISHING PAD

Maxshine foam polishing pads are professional designed for the restoration on painted surface and the daily maintenance. The entire series adopt the high quality polyester sponge made in Europe, which possess the advantage of excellent tensile strength and durability, and the service life of which is several times longer than that of the ordinary sponge. You can select out the appropriate hard or soft foam pad according to the process and the polish/wax being used, and make the most ideal gloss finish on the surface.
